PROFILE

Former STEM teacher and coach of physics olympiads medalists, I'm very passionate about constantly looking for new challenges and learnings, so I decided to become a frontend developer to enter and excel now in the vast and dynamic IT world.

FEATURED PROJECTS

Pawsome Friends

A website for pet adoption. It features a Home page, a Pets catalog with search filters, and pet adoption and registration forms.

MathCalc Pro

A calculator with arithmetic, algebraic and geometric functionalities, among others. Designed to assist high school students to develop confidence in their reasoning and problem solving processes.

TicTapToe

Cool looking tictactoe game developed from scratch, features a neumorphic design, scores bar and switches for the shape and starting player.

Admin Control Panel

A proposal of what could end up being the admin control panel for a local business e-commerce app. Includes sections for products, customers, and sales, among others.

EXPERIENCE

Frontend Developer Volunteer   2024 - Present
NoCountry

In this job simulation I worked with a team from different countries to develop the minimum viable product for a pet adoption shelter. This way I gained experience working with remote teams and using GitHub Projects, through GitHub flow.

Physics and ICT Teacher   2023 - 2024
Colegio El Peñón

In this school I served as an assistant ICT professor, teaching mainly Python and JavaScript languages to high school students. I served also as physics teacher, where I managed to get my students to win 13 of the 15 olympic medals that have been obtained under my charge.

STEM Teacher ↗   **2021 - 2023**
Colegio Universitario Progressum

Physics, Maths and ICT professor, I developed multidisciplinary projects with my students, mailnly involving technologies like HTML, CSS, Javascript, Python and Arduino, as well as data analysis software like LabPlot.

EDUCATION

Software Engineering ↗   **2023 - Present**
Universidad Abierta y a Distancia de México

Bachelor of Science in Physics ↗   **2015 - 2019**
Universidad Autónoma del Estado de Morelos

ACHIEVEMENTS

EF SET ↗
C1 (Advanced) English Certification

Microsoft Learn ↗
Creating your first web apps with React, Build JavaScript applications using TypeScript, and Introduction to version control with Git

{dev/talles} ↗
TanStack Query: a powerful and asynchronous state manager, Shadcn/ui: accessible and customizable components, and Visual Studio Code: improve your coding speed

EDteam ↗
Introduction to REST APIs, Introduction to Object Oriented Programming, Introduction to Linux Terminal, Markdown from zero, and The web developer's route

Awards in physics olympiads and rallys
By category: 5 first places, 3 third places, and 7 honorific mentions
By region: 12 state, 2 national, and 1 international

SKILLS   ## APTITUDES

- English (C1)
- Markdown
- JavaScript
- React
- Tailwind CSS
- TypeScript

- HTML
- CSS
- Git / GitHub
- Next.js
- Shadcn/ui
- SQL

- Attention to detail
- Self-taught
- Empathy
- Lifelong learning
- Formation
- Analytical thinking
